MONSTER! INSTRUCTIONS

NUMBER OF PLAYERS 2 or more

SUPPLIES: Set of dice. Printed game sheet. Pencils (regular or colored)

GOAL: To be the first person to complete your monster, then to be the player with the most points at the end of all nine rounds (if you choose to tally points).

RULES: Everyone must throw a 6 to begin drawing. The first player to complete the monster shouts "Monster!" Everyone adds up their points (the number for each part). Person with most points at the end of all 9 rounds wins.

DRAWING: You can draw the example monster or draw your own as long as it has all the body parts needed. There is a blank sheet should you choose to place your own monster example on it instead of the one we have.

YOUNGER CHILD OPTION: You can let the one who drew the monster win and not tally points.

GROUP OPTION: Each group has its own game set. Play is the same as above, but the winner in each group moves to the group to the right. The person with most points at the end of all 9 rounds wins.

OTHER OPTIONS: People can draw their own style of monster if they wish as long as they use only the parts described.

Printable Labels

Print, cut and place on game container. This set would make a fun gift!
