

Unique Light Fixture Patterns

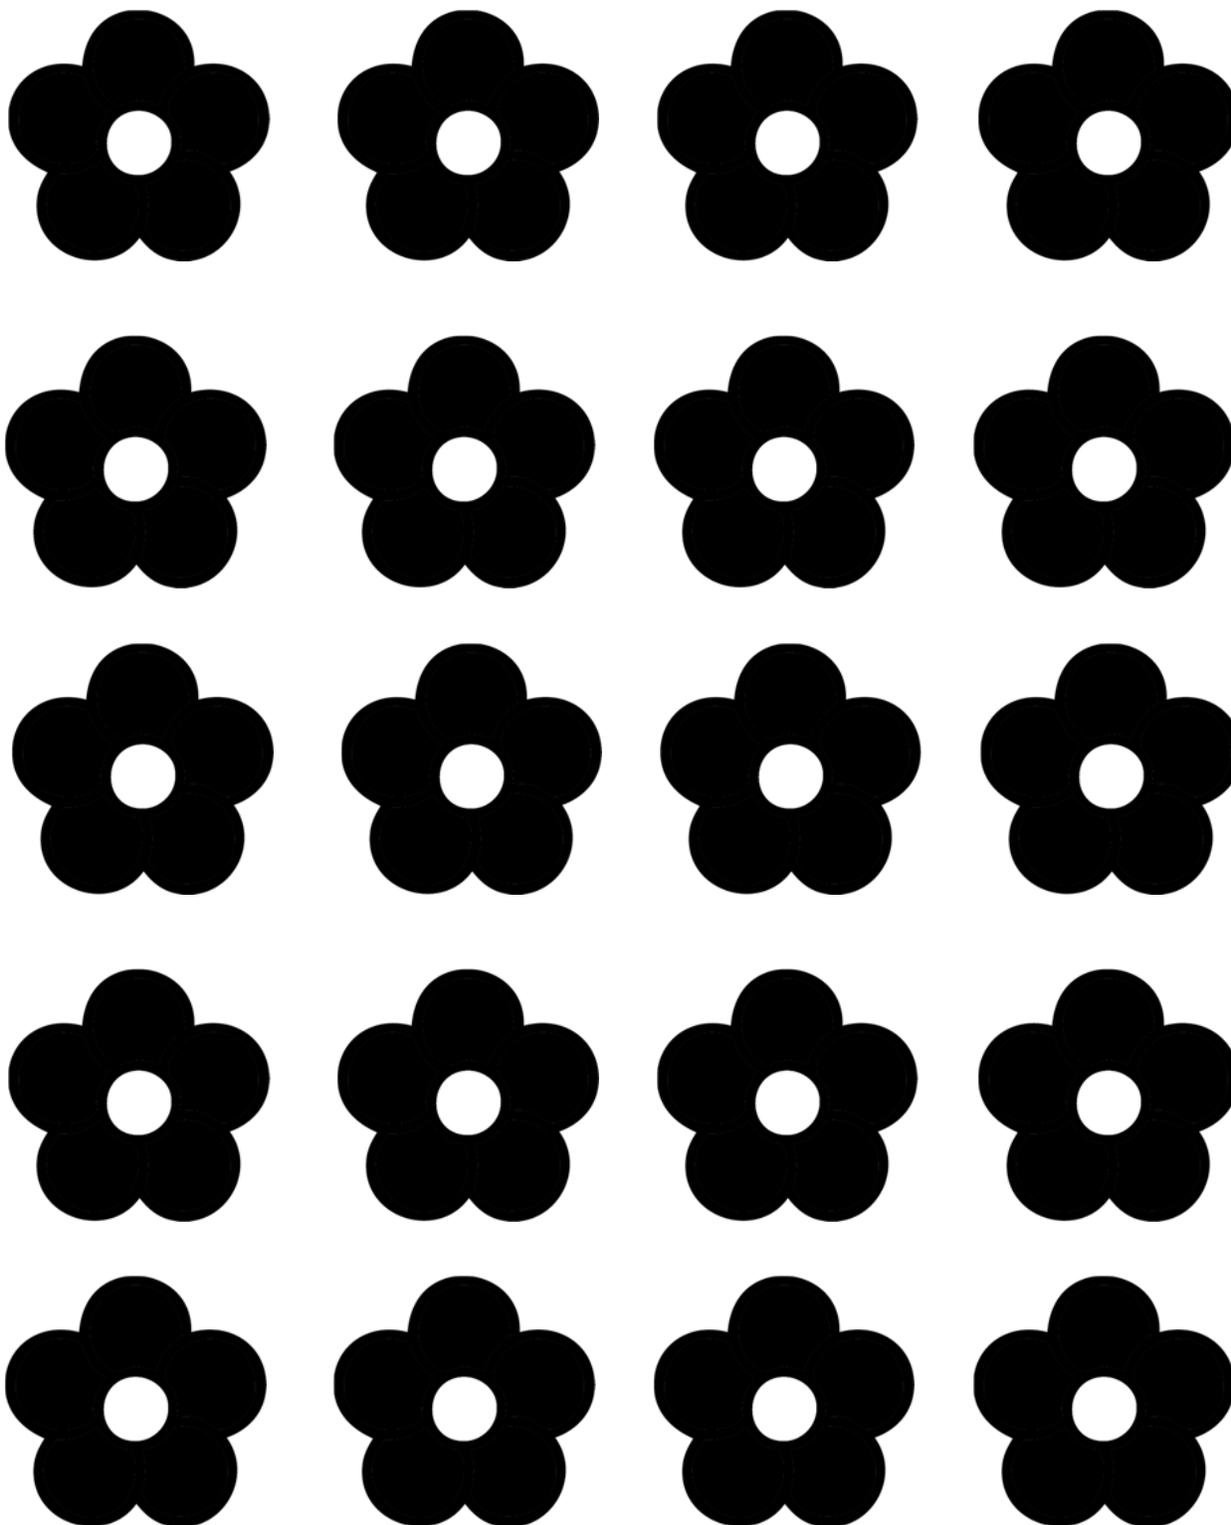

This fits one corner of a 12.5" square ceiling light cover. You can print out four copies or just one and move it for each corner.

Unique Light Fixture Patterns

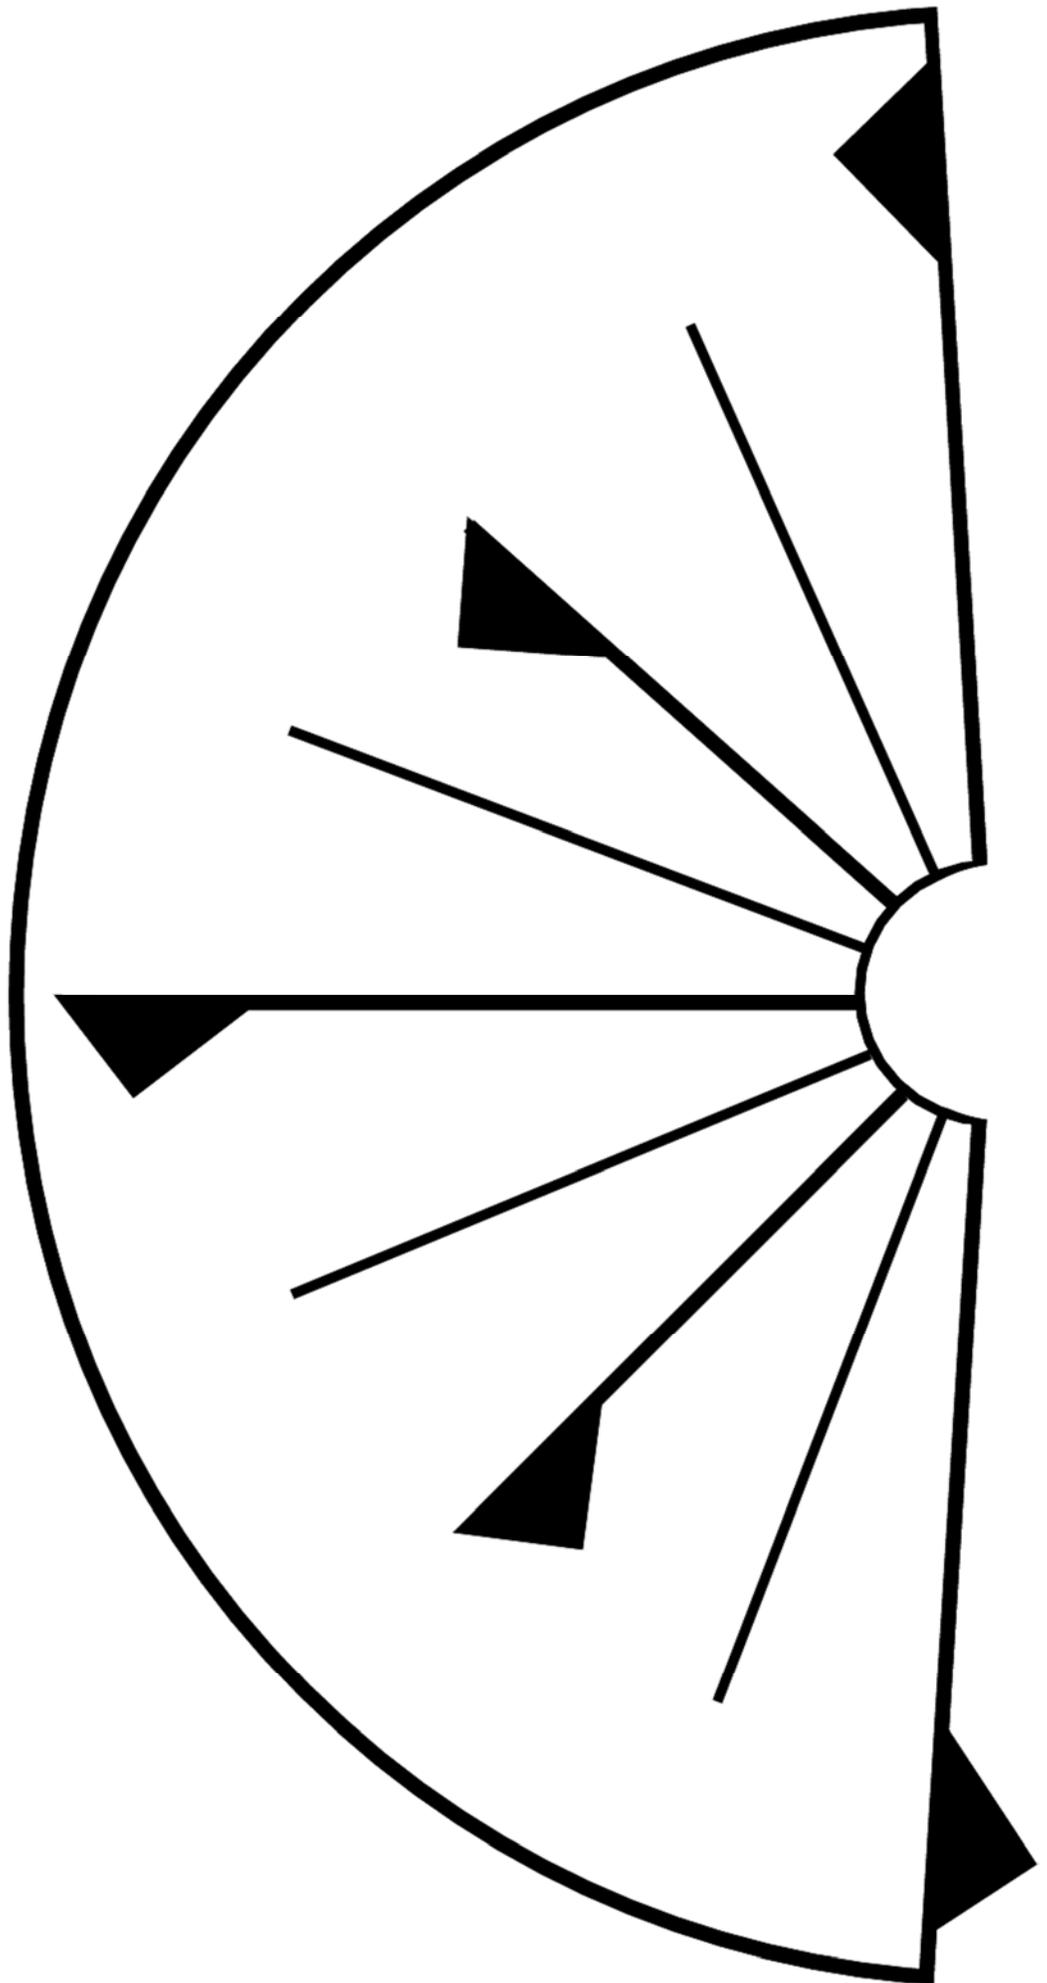

Cut each one out and ape inside light fixture where you want them to be. Then on the outside trace or color in with your oil paint pen, keeping the center open and free of paint.

You can also just outline them, or outline them and color the center hole.

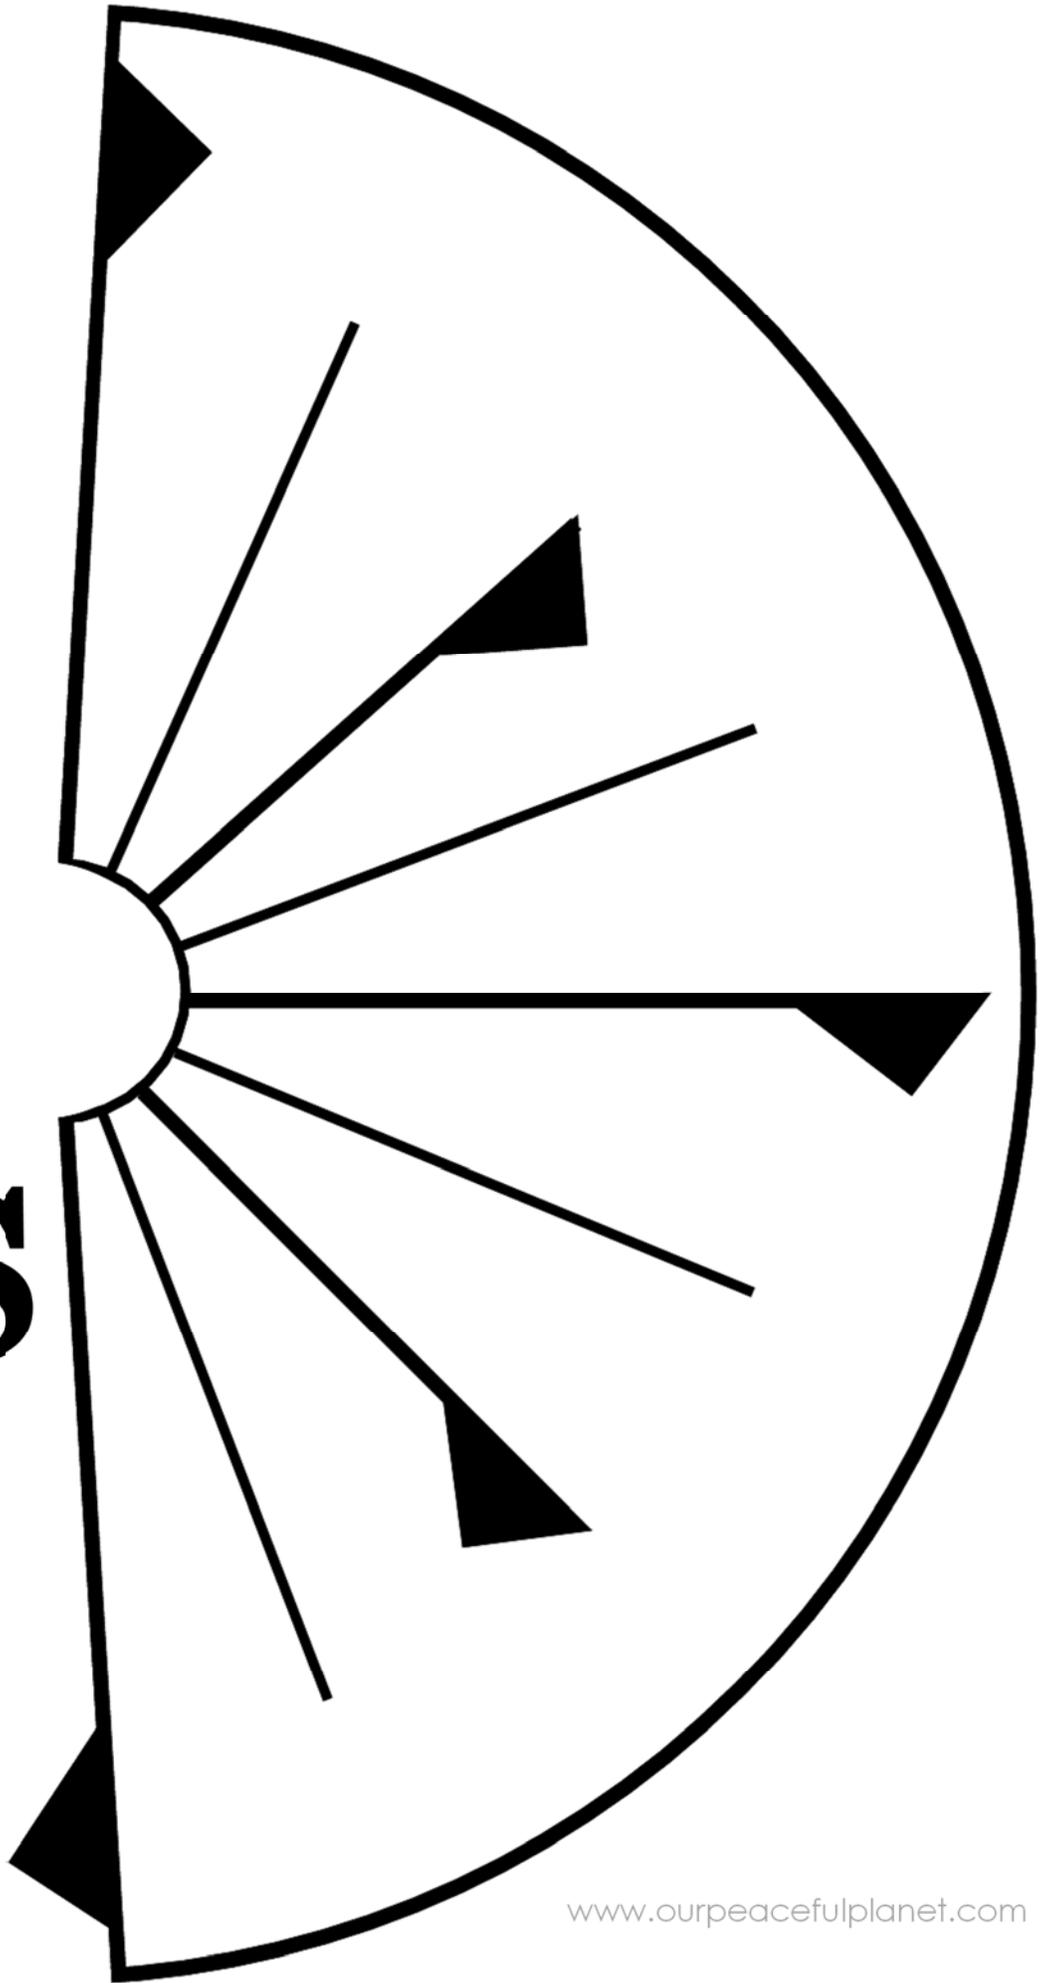

Unique Light Fixture Patterns

Print out both halves and cut as shown on the post. Piece together taping to inside center of glass light cover. Trace on outside. This is for a 15.5" cover though it can work for a
