

Black kitty cats are special!  
 So be wary not to cling  
 To silly superstitions  
 And the bad vibes that they bring

It's sad but true, they're chosen less.  
 Than cats of different colors.  
 Which means they're often put to rest  
 Far more than all the others.

So when you get a kitty cat,  
 Walk in a shelter door,  
 And choose a black one if you can.  
 You'll save its life and more.

They purr and love as all cats do.  
 If given just a shot.  
 You'll find they're just like people,  
 And the color matters not.
