

# CASUAL RESOLUTIONS

**Thank you for downloading the 7th Year version of our Casual Resolutions Kit!** Each year we update the kit in a variety of ways including a new theme, calendar, more great ideas and new printables including new inspiration quotes. As the last couple of years have been extra trying and stressful for most of us, we hope to inspire you in a variety of ways to take control of your own happiness and live in joy no matter what is going on around you.

There is one concept we want to share this year as I've found it to be the most powerful thing I have learned in my life. And that is that we are the one who decides our own happiness, no matter what goes on around us.

It's easy to feel it's of no worth because it's so simple. In this case the truth is in the simplicity. **Stress, sadness, fear, anger etc. is not caused by what happens to us or around us. It's caused by how we react to those things.** Happiness has always and forever been our own choice. The only reason it feels difficult is because we've not been taught to think that way, and like anything new, it takes practice. It's literal science based physiology and how the brain functions.

How we react to things on a regular basis literally changes the way our brain works. We chemically "train" the brain to react in certain ways. This is why when we've responded in negative ways for years it can take some work to retrain it. But it is most definitely possible. This is why the same thing can happen to two different people and for one it's a blessing and for another it's a curse. It is only their thinking that makes it so. It's indeed the most powerful lesson I have ever learned. So I share it hoping you will find the power within. Links to two incredibly helpful books and videos are provided below and on [our website post](#) for this year's kit. The brain is an amazing tool. Used purposefully it can literally change your life.

## RECOMMENDED BOOKS & VIDEOS

There are many books on the topic of the brain and neuroplasticity, which is the science of how we train our brain to react in certain ways. Below are three books I've read and a wonderful free documentary you can watch on YouTube. There's also a 4 minute short video explaining how neuroplasticity work in easy terms. You should be able to click on all of the live links when viewing this pdf on our computer. The links are also available on our web post here: <http://bit.ly/CasualResolutionsKit2022>

## Final Thoughts

Having goals should inspire and energize you, and most importantly *never* make you feel guilty if you don't complete all of them. Goals should be about having fun, learning and growing in a way that is comfortable and enjoyable. .

**Remember...** Even if you only accomplish one small thing on your list, celebrate it! Be proud of yourself with what you DO accomplish. It's all good. And most of all, have fun!

IT DOESN'T MATTER IF THE GLASS  
IS HALF EMPTY OR HALF FULL,  
BE GRATEFUL THAT YOU HAVE A GLASS,  
AND THERE IS SOMETHING IN IT

Every idea with an asterisk \* at the end of it means there are other things to help you with that specific idea. **The number of on the IDEAS PAGE will match the same number on the LINK IDEAS page.** (You can also type them manually into a browser URL box.)

The links will be helpful posts on our website, or occasionally other sites such as YouTube. A few links will be useful inexpensive amazon items.

# HOW TO SPEAK PIG LATIN

Pig Latin is a nonsensical way to talk to disguise what you want to say or just have fun with your own language. It's easy to do once you get the basic concept and you will become fluent in no time! Feel free to google Youtube videos showing how to speak it.

## BASICS:

To speak Pig Latin, move the consonant cluster from the start of the word to the end of the word; when words begin on a vowel, simply add "-yay", "-way", or "-ay" to the end instead. It does take a little practice. If a word starts with a vowel, say yay at the end. For example, out is "outyay." If a word has two letters that make one sound at the beginning, like "which," then you would take that sound and put it at the end, so "which" would become "ichway."

### 1. Learn how to form words beginning with consonants.

Words beginning with consonants would change as follows: the word "hello" would become ello-hay, the word "dog" would become og-day and the term "Pig Latin" would become ig-pay Atin-lay. Words beginning with consonant clusters would change as follows: the word "twitch" would become itch-tway, the word "shove" would become ove-shay and the term "fruit smoothie" would become uit-fray oothie-smay.

### 2. Learn how to form words beginning with vowels.

For words beginning with vowels, just add "-yay" (some Pig-Latin speakers may add "-way" or "-ay") to the end of the word. You don't need to change any letters around, just say the word as normal then add "-yay" to the end. For example: the word "it" becomes it-yay, the word "nut" becomes nut-yay and the word "ultimate" becomes ultimate-yay. This also is how you would use the personal pronoun "I," which becomes I-yay.

Learn how to form words containing the letter "Y." Words with the letter "Y" can be a little tricky, as whether you treat the letter "Y" as a consonant or a vowel changes depending on the where the letter is in the word.

If a word starts with the letter "Y" it is treated like a consonant and typically moved to the end of the word, as usual. For example, the word "yellow" becomes ellow-yay. The normal rules apply if "Y" is the second letter in a two letter word, such as "my," which becomes y-may. But if the letter "Y" comes at the end of a consonant cluster, like in the word "rhythm," it is treated like a vowel and does not move to the end of the word. For example, "rhythm" becomes ythm-rhay. (Pronounced ithym-ray)

## VARIATIONS:

- As this is a made up language there are some variations different people will use.

For words beginning with a vowel, some add the word "yay" rather than "way" to the end of a word. For example, the word "ocean" would become ocean-yay rather than "ocean-way" and the word "inbox" would become inbox-yay rather than "inbox-way".

- Another variation is to add the letter "Y" to the beginning of a word that starts with a vowel, in addition to adding "yay" to the end. For example, the word "extra" would become yextra-yay and the word "orange" would become yorange-yay.

- One more variation entails adding the suffix "ay" rather than "way" to a word that begins with a vowel but ends in a consonant. For example, "after" would become after-ay rather than "after-way" and the word "olives" would become olives-ay rather than "olives -way".

- According to Wikipedia, just adding "ay" to a word beginning with a vowel is also acceptable. This variation clears up the confusion of added consonants (e.g. wondering if the speaker means "wit" or "it").
