Butterfly Dream Catcher

The first set it sized to fit a typical Oval 8x10 frame. We link to the exact one used on the article. You can, however, display these in other frames simply centering them on the background. We also made other sizes should you decide to want a larger or smaller version.
This butterfly with golden wing
Does a very special thing.
It catches everything that’s bad,
Those dreams and thoughts that make you sad.
Then seals them in a gold cocoon,
And carries them far past the moon.
Then it returns that very night,
And you will wake in love and light.
