Contact Paper Counter Top Poem

Frame or simply place on your mirror.

5x7

We just redid our counter top,
though not the normal flavor.
It’s contact paper that you see.
So we ask this one favor:
Please try to keep it water free,
and treat it with good care.
Place nothing harsh upon it
so that it won’t stain or tear.
For though it’s very sensitive,
unlike the normal kind,
You must admit, for twenty bucks,
it does look quite refined.
